ADDANKI MANU SAI

+91 9963692044 addankimanusai@gmail.com addanki-manu-sai addankimanusai

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering graduate with a strong foundation in programming, Data Structures, and Algorithms, along with hands-on experience in problem-solving and project-based learning. Demonstrated ability to design and implement efficient solutions through academic and practical projects. Highly motivated to contribute to real-world software development and innovative technology initiatives while continuously learning and growing in a professional, industry-driven environ

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, SQL
Frontend	HTML5, CSS3, React.js
Databases	MySQL, MongoDB
Tools	Git, GitHub, VS Code

PROJECTS

TypeMaster – Interactive Typing Practice Platform *Live Demo*

Developed a responsive typing practice application featuring interactive typing tests, real-time Words Per Minute (WPM) and accuracy calculations, and virtual keyboard guidance to help users improve typing speed and precision. Built reusable React components and implemented dynamic UI updates for an interactive practice experience. Added real-time typing feedback to help users identify errors and improve typing efficiency.

Tech Stack: React.js, JavaScript, HTML5, CSS3, Vercel

Smart Attendance Management System *Live Demo*

Engineered a full-stack attendance management system with role-specific dashboards for administrators, faculty, and students. Implemented attendance marking, database-backed record management, and subject-wise attendance reports to streamline academic tracking and reduce manual recordkeeping. Centralized attendance records to simplify academic monitoring and improve reporting efficiency.

Tech Stack: MongoDB, Express.js, React.js, Node.js

Blood Donation Management System *Live Demo*

Built a full-stack web application connecting blood donors with individuals requiring blood through donor registration, donor search, and emergency blood request management. Integrated PHP and MySQL for server-side processing and data persistence, with a responsive interface and input validation to support reliable donor information management. Simplified donor discovery and emergency request handling through a centralized platform.

Tech Stack: HTML5, CSS3, JavaScript, PHP, MySQL

EDUCATION

B.Tech in Computer Science and Engineering, Mohan Babu University, Tirupati — **2022 – 2026**
CGPA: 8.10/10 — Tirupati, AP

Intermediate (12th), MPC, Vision junior College — **2022**
Percentage: 63% — Guntur, AP

Secondary School Certificate (10th), Narayana — **2020**
CGPA: 9.8/10 — Guntur, AP

ACHIEVEMENTS

- Solved 150+ problems on Data Structures and Algorithms across platform in LeetCode.
- Selected for the prestigious TOP GUN Batch, an elite college program focused on mastering Data Structures and Algorithms (DSA) and advanced coding practices.

CERTIFICATIONS

Full Stack Java – Skilldzire — **May 2025-July 2025**
Html, CSS ,JavaScrip – Udemy — **Dec 2024**
